1. IDENTIFICATION

Product Identifier
Product Name
Hydrox-Sil or Hydrox-Sil (Reagent)

Other means of identification
SDS #
270066e (RT-002)

Product Code
1-270066-500, 1-270454-200, 1-270455-200, 1-270457-200

UN/ID No
UN2924

Recommended use of the chemical and restrictions on use
Recommended Use
Analytical Reagent—GC Derivatization; Silylation Reagent.

Details of the supplier of the safety data sheet
Supplier Address
Regis Technologies, Inc.
8210 N. Austin Avenue
Morton Grove, IL 60053

Emergency Telephone Number
Company Phone Number
847-967-6000; 800-323-8144 (toll free)
Email: cservice@registech.com
www.registech.com

Emergency Telephone (24 hr)
INFOTRAC 1-352-323-3500 (International)
1-800-535-5053 (North America)

2. HAZARDS IDENTIFICATION

Appearance
Clear to cloudy liquid
Physical State
Liquid
Odor
Strong, pungent

Classification

<table>
<thead>
<tr>
<th>Hazard Class</th>
<th>Description</th>

Signal Word
Danger

Hazard Statements
Harmful if swallowed
Harmful in contact with skin
Harmful if inhaled
Causes severe skin burns and eye damage
May cause drowsiness or dizziness
Highly flammable liquid and vapor
Precautionary Statements - Prevention
Wash face, hands and any exposed skin thoroughly after handling
Do not eat, drink or smoke when using this product
Wear protective gloves/protective clothing/eye protection/face protection
Use only outdoors or in a well-ventilated area
Do not breathe dust/fume/gas/mist/vapors/spray
Keep away from heat/sparks/open flames/hot surfaces. — No smoking
Keep container tightly closed
Ground/bond container and receiving equipment
Use explosion-proof equipment
Use only non-sparking tools
Take precautionary measures against static discharge
Keep cool

Precautionary Statements - Response
Immediately call a poison center or doctor/physician
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
Immediately call a poison center or doctor/physician
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
Immediately call a poison center or doctor/physician
Wash contaminated clothing before reuse
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
Immediately call a poison center or doctor/physician
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
Rinse mouth
Do not induce vomiting
IN CASE OF FIRE: Use CO2, dry chemical, or foam for extinction

Precautionary Statements - Storage
Store locked up
Store in a well-ventilated place. Keep container tightly closed

Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal plant

3. COMPOSITION/INFORMATION ON INGREDIENTS

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>Pyridine</td>
<td>110-86-1</td>
<td>71-82</td>
</tr>
<tr>
<td>Hexamethyldisilazane</td>
<td>999-97-3</td>
<td>12-19</td>
</tr>
<tr>
<td>Trimethylchlorosilane</td>
<td>75-77-4</td>
<td>6-10</td>
</tr>
</tbody>
</table>

*If Chemical Name/CAS No is "proprietary" and/or Weight-% is listed as a range, the specific chemical identity and/or percentage of composition has been withheld as a trade secret.*

4. FIRST-AID MEASURES

First Aid Measures

General Advice
Provide this SDS to medical personnel for treatment.
Eye Contact  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor/physician.

Skin Contact  
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Immediately call a poison center or doctor/physician. Wash contaminated clothing before reuse.

Inhalation  
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a poison center or doctor/physician.

Ingestion  
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head lower than hips to help prevent aspiration. Maintain airway and respiration.

Most important symptoms and effects  
Symptoms  
Causes severe skin burns and eye damage. Harmful in contact with skin. Harmful if inhaled. May cause drowsiness or dizziness. Harmful if swallowed.

Indication of any immediate medical attention and special treatment needed  
Notes to Physician  
Symptomatic and supportive care. No specific antidote. Treatment based on physician judgment in response to reactions of the patient.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media  
Carbon dioxide, dry chemical powder, or appropriate foam.

Unsuitable Extinguishing Media  
Water may be ineffective in fighting fire.

Specific Hazards Arising from the Chemical  
Highly flammable, corrosive liquid and vapor--Do not put water directly on the fire due to vigorous reaction. Hydrolyzes vigorously with water to produce corrosive hydrogen chloride gas that in contact with metal can produce flammable/explosive hydrogen gas, and slowly hydrolyzes to produce ammonia that can react with hydrochloric gas to produce ammonium chloride salt. Vapors are heavier than air, may travel long distances along the ground to ignition sources and flash back. Vapor-air mixtures are explosive above flash point, within above stated limits. Chlorosilanes may cause re-ignition to occur. A fire guard should be posted during any clean up operation. Static electricity may accumulate and ignite vapors. Use bonding and grounding or inert gas blanketing. Containers may build pressure or rupture when heated. Container explosion may occur under fire conditions. Water spray may be used to cool fire-exposed containers.

Hazardous Combustion Products  
Carbon oxides, silicon oxides, chlorine, hydrogen chloride, phosgene; May decompose on contact with water.

Sensitivity to Static Discharge  
Take precautionary measures against static discharge.

Protective equipment and precautions for firefighters  
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures  
Personal Precautions  
Eliminate all ignition sources. Use spark proof tools. Evacuate unnecessary people from area. Isolate spilled material. Ventilate area. Wear protective clothing to prevent contact with skin and eyes (lab coat, gloves, safety glasses). Wear NIOSH/MSHA approved respirator for organic/amine gas, dust, and mists to prevent inhalation. A fire guard should be posted during any clean up operation as silane materials may easily ignite.
Environmental Precautions

See Section 12 for additional Ecological Information. Do not allow material to enter drains or watercourses.

Methods and material for containment and cleaning up

Methods for Containment

Prevent further leakage or spillage if safe to do so. Contain and recover material when possible. Neutralize with suitable neutralizing agent for basic-amine solutions.

Methods for Clean-Up

Use chemically compatible spill pillows, or similar adsorbent material. Collect, seal in appropriate hazardous waste container, and hold for proper waste disposal. Wash spill site after material pickup is complete.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on Safe Handling

Handle in accordance with good industrial hygiene and safety practice. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing and eye/face protection. Do not breathe dust/fume/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Wash face, hands, and any exposed skin thoroughly after handling. Keep away from heat/sparks/open flames/hot surfaces. — No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion proof equipment. Use only non-sparking tools. Take precautionary measures against static discharges. Keep cool.

Conditions for safe storage, including any incompatibilities

Storage Conditions

Keep container tightly closed and store in a cool, dry and well-ventilated place. Handle and store under nitrogen. Store locked up. Protect from moisture. Use appropriate precautions for highly flammable liquids with a high potential for static accumulation. Empty containers retain product residue, (liquid/vapor), and can be dangerous.

Incompatible Materials

Strong acids, acid chlorides, strong bases, alcohols, alkalis, amines. Strong oxidizers--Fire/explosion hazard. Water, moisture, or humid air--may decompose on contact: HMDS hydrolyzes to ammonia and TMCS hydrolyze to hydrochloric acid.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>ACGIH TLV</th>
<th>OSHA PEL</th>
<th>NIOSH IDLH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pyridine</td>
<td>TWA: 1 ppm</td>
<td>TWA: 5 ppm</td>
<td>IDLH: 1000 ppm</td>
</tr>
<tr>
<td>110-86-1</td>
<td></td>
<td>TWA: 15 mg/m³</td>
<td>TWA: 5 ppm</td>
</tr>
<tr>
<td></td>
<td>(vacated)</td>
<td>(vacated) TWA: 5 ppm</td>
<td>TWA: 15 mg/m³</td>
</tr>
</tbody>
</table>

Appropriate engineering controls

Engineering Controls

Apply technical measures to comply with the occupational exposure limits. Showers. Eyewash stations. Mechanical exhaust required. Hood recommended. Fume scrubber. Use adequate ventilation to keep airborne concentrations low.

Individual protection measures, such as personal protective equipment

Eye/Face Protection

Chemical safety eyewear.

Skin and Body Protection

Impervious protective clothing.

Respiratory Protection

NIOSH/MSHA approved respirator for organic/amine gas, dust, and mists.
**General Hygiene Considerations** Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. Avoid prolonged or repeated exposure. Wash thoroughly after handling. Immediately remove contaminated clothing, as material may be absorbed through skin. Wash contaminated clothing before reuse.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

### 10. STABILITY AND REACTIVITY

**Reactivity**
Not reactive under normal conditions.

**Chemical Stability**
Stable if stored under nitrogen and protected from moisture.

**Possibility of Hazardous Reactions**
None under normal processing.

**Hazardous Polymerization**
Hazardous polymerization does not occur.

**Conditions to Avoid**

**Incompatible Materials**
Strong acids, acid chlorides, strong bases, alcohols, alkalis, amines. Strong oxidizers--Fire/explosion hazard. Water, moisture, or humid air--may decompose on contact: HMDS hydrolyzes to ammonia and TMCS hydrolyze to hydrochloric acid.

**Hazardous Decomposition Products**
Carbon oxides, silicon oxides, chlorine, hydrogen chloride, phosgene; May decompose on contact with water.
11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information

Eye Contact Causes severe eye damage.

Skin Contact Causes severe skin burns. Harmful in contact with skin.

Inhalation Harmful if inhaled.

Ingestion Harmful if swallowed.
